Department: AWS Cloud Solution Architect & Administrator

Professional Summary

AWS Certified Cloud Solution Architect with expertise in designing secure, scalable, and optimized cloud infrastructures. Proficient in VPC creation, S3 storage policy implementation, and advanced cloud operations. Passionate about delivering tailored solutions for seamless business operations.

Professional Experience

AWS Cloud Solution Architect

Company: Global Knowledge

Dates: 11/2024 – 04/2025

- Designed and implemented a **VPC Peering Connection Creation** project, enhancing inter-region communication and optimizing network performance.
- Integrated advanced security and compliance measures, reducing latency across cloud environments.
- Led a team to deploy scalable cloud solutions, reducing infrastructure costs by 20%.

Survey Research Analyst

Platform: Surveyjobin

Dates: 05/2023 – 11/2023

- Conducted surveys on topics such as academic opportunities ("Study in the USA") and health awareness ("Early Symptoms of Breast Cancer").
- Delivered research analyzing public reactions to global economic trends, including "Boycott of French Goods."
- Compiled actionable insights to inform campaigns and strategic initiatives.

Education

AWS Academy Certification Program

Dates: 03/2024 – 11/2024

- **AWS Academy Graduate - Cloud Foundations**
- **AWS Academy Graduate - Cloud Operations**
- **AWS Academy Graduate - Cloud Architecting**

Technical Skills

- **AWS Services:** EC2, VPC, S3, IAM, CloudFormation, CloudWatch
- **DevOps Tools:** Terraform, Jenkins, Git
- **Programming:** Python, Bash, YAML
- **Networking:** VPC Peering, NAT Gateways, Internet Gateways

Soft Skills

- Strong problem-solving and analytical abilities.
- Effective communication and collaboration in team environments.
- Dedication to continuous learning and professional development.

Achievements & Certifications

- Reduced deployment time by 30% through infrastructure automation.

- Achieved three AWS Academy Graduate certifications, validating expertise in foundational, operational, and architectural cloud skills.
